DESIGNERS & MANUFACTURERS OF EXQUISITE FITTED FURNITURE

As designers and manufacturers of custom designed handpainted and wooden kitchens, we pride ourselves in meticulously planned and exquisitely crafted kitchens in any style from French Provencal and Rustic to Ultra Modern. Our experience in the field and focus on good design and client service will enable us to work with you to produce your ultimate dream kitchen.

Our expertise also extend to the design of cabinetry in all other areas of a home. Our Bedroom cupboards and bathroom vanities are far from ordinary. In both the handpainted finishes as well as wooden finishes, intricate detail such as fancy moulded corning, breakfront kickplates, beautiful door profiles and special touches like lattice and sandblasted glass inserts make them absolutely luxurious. We also work in smooth door profiles with sprayed satin finishes and wooden finishes to suit the more modern home.

Entertainment areas are just as much of a feature in our portfolio. We apply the same attention to design when it comes to elaborate TV units and Home Theatres that accommodate audiovisual equipment, but with all the special touches that make our cupboards so unique, making these units features in themselves. The same applies to studies, bars, wine cellars, Dining rooms and any other area where you feel the ordinary just won't do. We will fulfill all the cabinetry requirements of any home, and do it in exceptional style and exclusive quality.
